P. F. Bowring, Esquire., J.P.,
Deputy Commissioner, Kolar District.

To

D. M. Narasinga Rao, Esq., B.A.B.L.,
Secretary to the Government of Mysore,
General Department, Bangalore.

Sir,

In continuation of my letter D.Dis No.1104 of yesterday's date, regarding the importation of essential food-stuffs into this District, I have the honor to forward herewith for the information of Government, copy of a letter dated the 24th February 1917 received to-day from the Managing Director, Messrs. Spencer & Co, Limited, Madras, in reply to my enquiry on the subject.

2. I am quite in accord with the views expressed by the Managing Director in para 4 of his letter that the import statistics kept by the Collector of Sea Customs, Madras, should be taken as a rough guide for future importations of essential food-stuffs into any inland town.

I have the honor to be,
Sir,
Your most obedient servant,

J. F. Bowring

Deputy Commissioner
Kolar District.

Letter dated the 24th February 1917, from the Managing Director, Messrs. Spencer & Co, Limited, Madras, to the Deputy Commissioner, Kolar District.

Our Kolar branch has transferred to us certain correspondence received from you on the subject of the importation of essential foodstuffs into your District. Similar enquiries have been made from us by the Local Government in regard to Madras requirements, but as the result of a conference which has been held it is recognised that it is impossible to collect the detailed information such as has been asked for.

2. There is no difficulty in stating more or less generally what are essentials and what are not, but the difficulty is to get at quantities, and this difficulty has been to some extent got over by a suggestion that the import statistics kept by the Collector of Customs, Madras, should form the basis for future importations of essential foodstuffs. It is recognised that these import statistics cover not only requirements in Madras, but cover the requirements of the whole of the Presidency, and therefore if in the case of essentials the Government of India adopt such statistics as the minimum requirements, Kolar will also receive her requirements in the future, which in the case of essentials should not be less than what Kolar has been accustomed to.

3. Essentials which are not procurable from other places than England are:-

Baking Powder, Barley, Biscuits, Mellin's Food, Bovril, Brand's Essences, Candles, Cereal Foods, Cornflour, Gelatine, Infants' Foods, Isinglass, Tinned Milk, Oatmeal, Sago.

Soap, Vermicelli, Vinegar, and probably a few other items. There are of course many essentials which ordinarily speaking are procurable from other places than Europe, but information in connection with such items is not called for.

4. We think if you frame your reply upon the suggestion contained in this letter to the effect that all your requirements come through Madras, and what are essentials in Madras are also essentials in Kolar, and that if as a basis the figures kept by the Collector of Sea Customs should be taken as a guide for the future, we think that this general statement is all that can be expected, and would not only support the view held in Madras but would also be an indication to the Government that the key to the whole situation is not the local imports into such places as Kolar, Bangalore or any other inland town, but the actual imports into Madras. The imports into Madras govern the requirements of the whole of the Presidency, and if these are maintained at the essential minimum, the whole of the Presidency will automatically receive its requirements.

Sir,

With reference to your letter No.G.11162-74-G.M. 102-16-170, dated 16th February 1917, I have the honor to state for the information of Government that no food stuffs of the kind mentioned in the telegram enclosed in your letter are indented for from the Medical Stores and as such nothing is required for the Medical Stores.

The District Head Quarter Hospitals may be geting small quantities of tinned foods and Patent medicines for invalids. But as the supply is made by Contract who have already tendered their rates, which have been accepted and will be in force till the end of 1917, no special steps seem to be necessary in the interests of the Medical Department.
